

## NextGen Technology Group Announces Alliance with Aztec Repair

**Washington, D.C., (March 24, 2008)** – NextGen Technology Group, the telecom industry’s first IP-centric interconnect technology organization, today announced it has signed an alliance agreement with Aztec Repair. As part of the agreement, Aztec Repair has been selected to join NextGen’s preferred solutions partner program and gives NextGen members a host of priority benefits including access to one of the nation’s leading telephone system equipment repair facilities as well as organizational discounts for repair services, a dedicated 800 number, automatic priority turnaround services and more.

“We are pleased to join NextGen Technology Group in its mission to help member companies make a smooth transition to IP-based voice and data,” said Les Asher, president of Aztec Repair. “Aztec Repair has built a 25-year reputation for providing the highest quality repair and refurbishing. We look forward to working with NextGen Group and building successful relationships with NextGen members and assist them in meeting their individual business goals.”

NextGen Technology Group’s was established to help its members successfully bridge the IP technology and applications integration gap facing many established telecom businesses. Qualified interconnects who become members of NextGen Group are poised to achieve business goals faster and prosper in the increasingly crowded VoIP market by utilizing the group’s nationwide network of business solutions providers, nationally certified installation team and other resources including peer-to-peer coaching, mentoring, sharing of best practices, unified voice to manufacturers and alliance partners, business and technology training, sales successes and more.

“NextGen Technology Group is a membership organization geared specifically for ‘best of breed’ telecom interconnects,” said Joe Distefano, one of six NextGen founding members and president of Data-Tel, LLC. “Aztec Repair fulfills a critical service offering for our members and supports our organization mission to provide overall value of services and best practices for our NextGen members.”
